MANISHA RIKHARI

FULL STACK DEVELOPER

Delhi, India | +91-9654673488 | manisharikhari011005Agmail.com

GitHub | LinkedIn | Portfolio

Professional Summary

Full Stack Developer with hands-on experience building **responsive web applications**, developing reusable **UI components**, and integrating **REST APIs**. Skilled in **JavaScript**, **React.js**, **Next.js**, and **Tailwind CSS**, with practical experience in **Node.js**, **Express.js**, and relational databases. Contributed to live tourism and matchmaking platforms and developed an earthquake monitoring application using external data feeds, interactive maps, and backend APIs.

Technical Skills

Languages: **JavaScript, HTML5, CSS3**

Frontend: **React.js, Next.js, Tailwind CSS, Bootstrap**

Backend: **Node.js, Express.js, REST APIs**

Databases & ORM: **PostgreSQL, MySQL, Sequelize**

Tools & Technologies: **Git, GitHub, Postman, Vercel, Render, Redux, Redux Toolkit, Leaflet**

Work Experience

Callsmaster Services LLP *Oct 2025 – Present*

Full Stack Developer Intern *New Delhi, India*

- Built the **Tours & Experiences page from scratch** using **Next.js** and **React.js**, integrating **REST APIs** to fetch and dynamically render data in a responsive interface.
- Developed reusable **UI components** and responsive layouts using **Tailwind CSS**, supporting consistent experiences across desktop, tablet, and mobile screens.
- Assisted in implementing backend features using **Node.js** and **Express.js** under senior developer guidance, contributing to API-driven application workflows.
- Collaborated with senior developers to **debug integration issues**, refine existing features, and deliver application requirements across frontend and backend workflows.

Projects

Terra-alert Live Demo

Next.js, React.js, JavaScript, Tailwind CSS, Leaflet, Node.js, Express.js, PostgreSQL, USGS API

- Developed an earthquake monitoring dashboard integrating the **USGS earthquake feed** to display seismic events and classify alerts by severity.
- Implemented interactive **Leaflet maps**, severity and location filters, detailed alert views, and saved locations for exploring earthquake activity.
- Built **Express.js REST APIs** and integrated **PostgreSQL** for storing, retrieving, and managing earthquake alert data.
- Integrated **browser geolocation** and **weather API data** to provide nearby event monitoring and local weather context.

The Thai Tourism Live Project

Next.js, React.js, JavaScript, Tailwind CSS, REST APIs, Node.js, Express.js, PostgreSQL

- Developed the **Holiday Packages page**, implementing structured layouts and dynamic presentation of tourism package information.
- Connected frontend interfaces with **REST APIs** to retrieve and display package and destination data within the tourism platform.

Rishtey NCR Live Project

Next.js, Tailwind CSS, MySQL, Sequelize, Redux, Redux Toolkit

- Contributed to **7+ responsive UI pages** for a matrimonial and matchmaking platform supporting member profiles, match discovery, and subscriptions.
- Supported **CRM functionality** and developed frontend features to improve platform workflows and member interactions.

Education

Bachelor of Computer Applications (BCA) *2023 – 2026*

Delhi Skill and Entrepreneurship University, Delhi CGPA: 8.6/10
